

As a Citizen of this great country, and an XM Radio listener/subscriber, I am appalled that you even have the time to worry about the the radio stations problems with XM Radio. XM Radio is a paid subscription service, and we the subscribers paying for this service want a variety of offerings including weather and news. If the radio stations would get rid of the immorality and B.S. they distribute they would have not lost people like us, the subscribers. Please focus on the REAL issues our great country has, and the need for changes within our society.Thanks for your ear!
